get \$960,000. So what we are doing, maybe what we are doing is another University of Omaha. Now all of my facts and all of my figures come from the Summary of Legislative Districts and Secondary Schools in Nebraska with Approved Vocational Education Program, 1981-82 School Year, Larry Willis.

SPEAKER NICHOL: One minute.

SENATOR HABERMAN: Thank you. I would also like to request the Chairman of the committee to have a new fiscal note be made up-to-date. Let's have a new one for this year. As I learned a lesson yesterday in a public hearing, having a current fiscal note and even having a fiscal note is very, very important. So as I say, as this goes across the Board, I will try to provide you with more information as I am doing a lot of research on this and I just want to call your attention that it is just not everything that you think it is by having a great vocational educational program. Thank you, Mr. President.

SPEAKER NICHOL: Senator Rod Johnson, and then Senator Lamb.

SENATOR R. JOHNSON: Mr. Speaker, members of the Legislature, I rise to support this proposal. You know what we are trying to obtain in education in this state is an opportunity for all of the students, not just for some of them, and I think we have to take into consideration, as Senator Sieck mentioned, that only half of our students now graduating from our high schools are going on to secure postsecondary educations. So I think that we have to look at those other students who I believe need a good education and should have opportunities. The ability to adapt in the Twenty-first Century is going to be for those people that are going to be able to move equally and easily from job to job. I believe that a vocational education will provide a good education, a sound education in both the home and the workplace and I think in society as a whole. Our schools, I believe, have two responsibilities. First, they are to motivate, to inspire and to intelligently equip our students with a good education. And secondly, I think they are there to provide young people with the skills that will enable him or her to be successful in work and in life. You know the cost has been mentioned by Senator Haberman and I think that \$2 million is a lot to spend. But you know in the last 25
